# TORCH STAKE

**SAVE THIS INFORMATION FOR FUTURE REFERENCE**

## Torch Stake Installation

1. Insert torch pole (not included) into the top of the torch stake.
2. Tighten the thumb screw until the torch pole (not included) is secure.
3. Insert stake into soil, making sure the torch is stable and will not tip over once it is filled with torch fluid (torch and torch fluid not included).

## **TORCH SAFETY & GUIDELINES**

- Read and understand these instructions.
- Do not tip torch as fuel can spill before use and can cause fire or serious injury.
- For outdoor use only.
- Failure to follow warnings and instruction may result in serious injury or destruction of property.
- Keep out of reach of children or pets.
- Do not leave a burning torch unattended.
- Do not use gasoline or other flammable liquids.
- Do not move torch while burning.
- To prevent burn injuries, snuff flame, and allow to cool down before handling.
- Refill torch before use, and only refill when torch is cold, wait at least 30 minutes before refilling or cleaning.
- Keep clothing, hair, and body parts away from flame - may cause serious burns.
- DO NOT place torch under covered shelter or umbrella, or near other combustibles, such as but not limited to wood structures, clothing, dry vegetation.
- Use in well-ventilated area.
- Do not use torch fuel with any other product vessel.
- Hot while in use.

## **DANGER**

Torch Fuel is harmful or fatal if swallowed. Contains petroleum hydrocarbons. Combustible. Read Warning on torch fuel bottle carefully.
